***WHAT IS THE PASS PACKAGE?**

The Exam Simulator PASS Package is a complete integrated study system. It includes a textbook and an online practice system. The study guide covers everything you need to know to pass your licensing test. You then use the online practice system to test your knowledge of the topics covered in the book and class. The Exam Simulator online practice system is specifically designed to let you know when you are ready to pass the test. By using the study by topic sections, you'll see where you need to direct your study attention. Then, you will simulate your exam. Exam simulations are a representation of the actual exam, including length of time to test, subject matter, and topic weight.

We also offer an on-line version of this course.

AUDIO STUDY AID

Listen UP! is an audio CD that dynamically presents important insurance concepts, concentrating on areas that have proven to be difficult for many students. Cost - \$25.00
